NO PARA
EGYESÜLET

Introduction:

Zsolt Gelsi
president

Dobróné Dr. Tóth Márta
vice president

Krisztina Lutter
vice president

The association in brief:

My name is Zsolt Gelsi, I was born in 1975 and I am the founder and the current president of the so-called "NO PARA Egyesület". In 1992, due to a tragic train accident I lost both of my legs and my right arm.

Since my recovery I have been living on my own trying to take care of myself. I work hard to live day after day while I try to preserve my dignity. I know exactly how difficult a lifelike this is but I believe in a happy life and I know others can achieve a good life as well.

Therefore, I have decided to establish an association that support young people who suffer the same fate, because no matter how hard life can be, we should never give up.

The most important thing is that you have to always set goals, thus you can achieve success in your life.

Future prospects:

On the one hand, our aim is to explore opportunities that are necessary for the physical, psychical and the social well-being of the disabled people, while on the other hand we would like to help them to achieve this welfare. Our main task is to support the talented disabled young people. For this, we look up the talented children who live in our county, furthermore we are in contact with them continuously.

We help them with cultural, healthcare and sport programs, in the afternoons we talk with them about anything, what is more we organize funny and entertaining programs for them.

If it is necessary, we can support their aims with fundraising. In 2018, we became a non-profit organization.

Our activities:

- we facilitate these children's integration into the society
- we try to explore the opportunities that are necessary to them in connection with a general work or a telework, furthermore we help them find a suitable work
- technical advice
- we support them in studying foreign languages
- our services to companies: development of team building activities (*sensitizing programs, groups sessions, exchange of ideas, discussion of problems, thinking out new ideas, organization of excursions*)
- we promote their participation on cultural programs (*cinema, theatre, zoo, concerts*)
- we contact such associations that support foreign and native disabled people
- we help to explore the support facilities and sources
- we actively follow up the regulations related to disability and the up-to-date professional literature, publications, articles, furthermore we help the people to get to know these documents
- we pay attention to the applications.

How can you join us?

If you would like to be the member of an association that support disabled people and you would like to be in a really good community then please indicate your intention on the backside.
